WORK EXPERIENCE

Frontend Developer – *Movable Ink (formally Coherent Path), Toronto*

August 2021 – Present

- Developed React Typescript components and pages for the newly redesigned UI of an AI driven email marketing web app.
- Worked with a team of backend developers and designers as the main point of contact for the frontend to push new features. fix bugs and meet sprint deadlines.
- Onboarded new developers and helped them set up their development environments.
- Made a frontend only documentation site in React using Markdown files for terms and guides.

Software Developer Intern – *Caranci Consulting, Barrie*

January 2019 – May 2019

- Configured data visualizations in Microsoft Dynamics NAV based on customer requirements.
- Collaborated with a team of developers to create automation of the client's inventory system leveraging a machine learning API.
- Developed a Python script to automate the migration of a large project to a modified structure on a new server.

Software Developer Intern – *5Crowd, Toronto*

January 2018 – May 2018

- Coordinated with a Project Manager and Graphic Designer to define scope and timeline for a complete website redesign.
- Led the development of 5crowd's new customer facing website built on WordPress.
- Played a lead role in QA, ensuring the quality of work by an outsourced development team.
- Developed solutions to fix bugs on a Project Management web app using AngularJS, SCSS, and Pug.js.
- Animated multiple detailed city skylines using SVG CSS3 keyframe animations.

SKILLS

- Programming skills: JavaScript, React, Typescript, Node, HTML, CSS, SCSS, TailwindCSS, GraphQL, Java, Junit, PostgreSQL, MongoDB, Redis, Bootstrap, WordPress.
- Software skills: IntelliJ, VS Code, Visual Studio, IIS, MS Project, Slack, FileZilla, MS SQL Management Studio, Trello, Shortcut.
- Excellent communication skills, both verbal and written.
- Proven through experience to be effective working both with a team and independently.

PROJECTS

DevConnect – *React & Node*

GitHub: <https://github.com/jdelongs/DevConnect>

Website: <https://whispering-ravine-66238.herokuapp.com/>

A full-stack LinkedIn clone that is built with React Hooks and Redux on the frontend, Node, Express, and MongoDB on the backend. This app also uses Mongoose for interacting with MongoDB.

EDUCATION

Computer Programmer – *Georgian College, Barrie*

September 2016 – May 2019

Learned object-oriented programming as well as web technologies and languages such as PHP, HTML, CSS, ASP.NET, C#, JavaScript, Java and MySQL. Also learned TDD, agile development, and SDLC.

ACHIEVEMENTS AND CONTRIBUTIONS

GreenHack 2017 – *Hackathon hosted by Henry Bernick Entrepreneurship Centre*

February 2017

Conceptualized and prototyped an automated battery packaging machine to compete in the challenge provided by GEEP (Global Electric Electronic Processing).
